We design projects that **endure** in their place

ILIDA Consulting Engineers S.A. has been active since 1997 in the preparation of public works studies and the provision of Technical Consultant services to public sector bodies, local authorities and the private sector.

Headquartered in Chavari, Ilia, with central offices in Nea Ionia, Attica, we cover the entire life cycle of a project: from initial design, permitting and project-maturation studies, to tender documents, construction support and operation.

Our multidisciplinary team — architects, civil, surveying, electrical and mechanical engineers, geologists, agronomists, foresters, spatial planners and environmental engineers — works with state-of-the-art GIS, photogrammetry, UAV and 3D surveying tools.

1997

year operations began

26

study licence categories

321

units of study capacity

6

certified ISO systems

International presence: studies and project supervision in Cyprus (Paphos, Paralimni – Protaras).

Our offices in Nea Ionia

BIOCLIMATIC BUILDING

Our offices in Nea Ionia have been recognised for their pioneering bioclimatic design — heating, cooling and lighting through **passive systems**.

«TA NEA» newspaper, energy feature, 24.11.2007

Certified Management Systems

We operate an Integrated Management System certified by accredited bodies (Bureau Veritas Certification, AXIA CERT) against six international standards. Quality certification has been maintained without interruption since 2008.

Energy Management

AXIA CERT · since 2026

Our commitments

- 01 Studies and services of high technical quality, in line with client requirements and the regulatory framework.
- 02 Protection of the environment and reduction of our energy footprint.
- 03 A safe and healthy working environment for everyone.
- 04 Confidentiality, integrity and availability of project and client data.
- 05 Continuity of our services under any circumstances.
- 06 Ongoing staff training and continual improvement, through internal audits and management reviews.

Study Licences

Study licences in **26 categories** of studies (Law 3316/2005 – P.D. 138/2009), with a total capacity of **321 units**. With emphasis on categories of the highest class, E'.

11

categories
of class E'

Cat.	Field of study	Class	Capacity (units)
01	Spatial & Regulatory	D'	21
02	Urban Planning & Street Layout	E'	20

Total — 26 categories			321 units

Nine fields, one integrated approach

01

Spatial & Urban Planning

Spatial and regulatory plans, General and Local Urban Plans, urban layouts and implementation acts.

02

Urban Regeneration

Urban design, regeneration of public and open spaces, bioclimatic landscape design.

03

National Cadastre

Cadastral surveys, cadastral maps and tables, forest maps and forest cadastre.

04

Surveying & GIS

Geodesy, photogrammetry, remote sensing, UAV, laser scanning and GIS applications.

05

Transport Infrastructure

Road and railway projects, traffic studies, signage and road safety.

06

Water & Hydraulic Works

Water supply and treatment, flood protection, stream regulation and delineation.

07

Environment & Sustainability

EIA and SEA, Natura 2000, wastewater and waste management, environmental restoration.

08

Architecture

Public buildings, schools, cultural buildings, monument restoration, structural and MEP studies.

09

Technical Consultancy

Project management, tender documents, construction and operation support.

SELECTED PROJECTS

01 Spatial & Urban Planning

- 01 Preparation of 9 Local Urban Plans in 5 Regions
- 02 Revision of the General Urban Plan of the Municipality of Neo Psychiko
- 03 Preparation – amendment of the General Urban Plan of the Municipality of Pyli
- 04 Topographic, cadastral and urban planning studies, Municipality of Kifissia
- 05 General Master Plan of the Port of Elefsina
- 06 Implementation Act for the extension of the Gastouni town plan
- 07 Urban organisation of the Dilaveri estate, Municipality of Metamorfosi
- 08 Urban extension study and implementation act, Tragano, Ilia
- 09 Sustainable development programme (Habitat Agenda), traditional settlements of the Municipality of Meliteieis
- 10 Regulatory decisions on land uses and pedestrian streets, Municipality of Nea Ionia

02 Urban Regeneration

- 01 Design and supervision of the Protaras seafront promenade (Phases D, E), Municipality of Paralimni, Cyprus
- 02 Bioclimatic upgrade and sustainable mobility of streets in Planning Units 14-15 (Kifisias – Votsi), Kalamaria
- 03 Regeneration of the traditional core of the Anavargos district and the southern commercial centre
- 04 Regeneration and underground car park, Andriara Square, Pyrgos
- 05 Regeneration and underground car park, Valtetsiou Square, Tripoli
- 06 Regeneration of the communities of Gryllos, Dragogi, Dafnoula, Sekoulas, Andritsaina and Krestena
- 07 Regeneration of squares and gardens, Municipality of Zacharo · Mouzaki square
- 08 Regeneration works in Epitalio, Vounargo, Simopoulo, Lampeia – Oreini – Astras, Varkos Kalydonas

SELECTED PROJECTS

03

National Cadastre

- 01 Cadastral survey of the remaining areas of the Regional Unit of Ilia, Region of Western Greece
- 02 Cadastral survey of the remaining areas of the Regional Unit of Aitolokarnania
- 03 Cadastral survey for the completion of the Cadastre in the Regional Unit of Kilikis
- 04 Compilation and update of forest maps, Regional Unit of Evrytania
- 05 Phase B cadastral survey in the Municipalities of Aspropyrgos, Ilion, Mandra, Petroupoli and Chaidari
- 06 Cadastral survey of local authorities in the Prefecture of Kefalonia (Argostoli, Lixouri, etc.)
- 07 Cadastral survey of the community of Martino, Fthiotida

04

Surveying & GIS

- 01 Survey of the existing road network in the Regional Units of Achaia and Ilia (Technical Chamber of Greece)
- 02 Topographic, cadastral and transport studies within the new boundaries of the Municipality of Amaliada
- 03 Topographic works for the water conveyance pipelines from the Aposelemis dam, Lasithi
- 04 Cadastral diagrams for the flood protection of the Municipality of Loutraki – Perachora – Agioi Theodoroi
- 05 3D survey of a section of the Corinth – Patras motorway using a mobile mapping system
- 06 3D survey of the road network of Palaiochora, Chania · road elevation update for a WWTP study

NEW EQUIPMENT · TECHNOLOGY · AI

Trimble MX50

Mobile mapping system with two laser scanners and a panoramic camera, producing geo-referenced, coloured LiDAR point clouds of road networks while the vehicle is in motion.

DJI Matrice 400 + Zenmuse L3

Next-generation drone with up to 59 minutes of flight time and a long-range airborne LiDAR with dual 100 MP cameras, for fast surveying of large areas, even beneath vegetation.

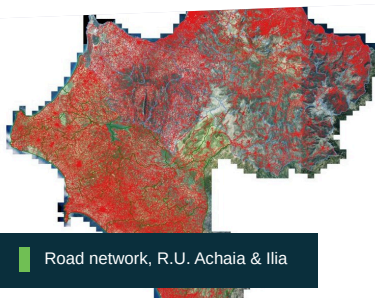

Artificial intelligence

AI algorithms for automatic point-cloud classification and vector feature extraction in GIS/BIM, delivering faster and more complete geospatial data.

Satellite geodesy · Photogrammetry & remote sensing · UAV orthophoto maps and DSM · 3D laser-scanner surveys

National Cadastre

Road network, R.U. Achaia & Ilia

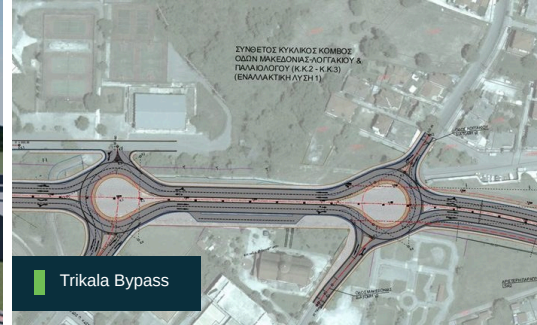

Trimble MX50 in operation

Corinth – Patras motorway

Upgrade of the Larissa – Farsala National Road

Trikala Bypass

Kalloni – Petra road axis, Lesvos

SELECTED PROJECTS

05 Transport Infrastructure

- 01 Larissa Eastern Bypass, section from the Volos National Road interchange to the Viokarpet interchange
- 02 Upgrade of the Trikala Bypass, section from the Megalochori interchange to the Kalampaka interchange
- 03 Upgrade of the Larissa – Farsala National Road, section from the Southern Bypass interchange to the Nikaia bypass
- 04 Rockfall and landslide mitigation, Rethymno – Armeni – Spili road section
- 05 Rockfall and landslide mitigation on provincial roads 14, 22 and 29
- 06 Connection of the new Tripoli – Lefktro – Sparti motorway with the Tripoli – Sparti National Road
- 07 Alignment of the new Kalampaka – Kozani railway line, Siatista – Kozani section
- 08 Rizomylos – Kalamata road (Rizomylos – Bouka and Bouka – Kalamata sections)
- 09 Bypass of Agria, Ano and Kato Lechonía, Pelion road circuit
- 10 Road improvements in the municipal area of Paphos, Cyprus
- 11 Traffic study for the new Paros Airport
- 12 Coastal road and upgrade of the provincial road network, Prefecture of Ilia
- 13 Kalyvakia – Ploutochori – Sekoulas – Andritsaina road
- 14 Transport, topographic and cadastral studies, Municipalities of Gastouni and Messini

06 Technical Consultancy

- 01 Technical Consultant supporting the Directorates of Technical Works of the Region of Western Greece in study and project maturation
- 02 Technical Consultant for the amendment of the final design of the Kalloni – Petra road axis, Lesvos
- 03 Management consultant: water supply of Heraklion and Agios Nikolaos from the Aposelemis dam
- 04 Support to Egnatia Odos S.A. for road-safety improvement studies in Attica, the Cyclades and the Dodecanese
- 05 Drinking water treatment plant from the Pinios artificial lake
- 06 Water supply of municipalities and communities, Prefecture of Ilia
- 07 Pollution control, coastal protection and urban wastewater management, Municipality of Ilida
- 08 Flood protection works on Dervenion Street, Municipality of Metamorfofi

Water supply – treatment plant from the Pinios artificial lake

River delineation, Ilia

Samos water supply master plan

SELECTED PROJECTS

07

Water & Hydraulic Works

- 01 Water supply of Heraklion and Agios Nikolaos from the Aposelemis dam
- 02 Water supply – treatment plant from the Pinios artificial lake
- 03 Water supply master plan, Municipality of Samos
- 04 Master Plan for the prioritisation and management of streams, Regional Unit of Florina
- 05 Flood protection of coastal settlements in the Strymonian Gulf
- 06 Delineation of rivers and torrents, Prefecture of Ilia and Regional Unit of Achaia
- 07 Regulation – delineation of the Rafina stream
- 08 Stormwater network, Municipality of Elefsina · stormwater management of Kyprian Agoniston Street, Marousi
- 09 Maturation studies for SAEP 801 projects, Municipality of Pyrgos

08

Environment & Sustainability

- 01 Special Environmental Studies and Natura 2000 Management Plans, Western Greece and the Ionian Islands
- 02 Strategic Environmental Assessment of the Regional Operational Programmes of the Peloponnese and Thessaly 2007-2013
- 03 Special environmental study of the Foloi Plateau
- 04 Environmental study for the new entrance gate and ticket offices, Port of Kyllini
- 05 EIA for the Kyllini – Pyrgos-Patras National Road link and the Pinios lake treatment plant
- 06 Environmental permitting of the Varda WWTP, Ilia
- 07 Wastewater treatment and disposal for Graikas, Diasella, Gryllos and Vrina

Music Secondary School, Vartholomio

Music Secondary School, Elefsina

1st & 2nd Primary School, Elefsina

MEP works, Archaeological Park, Piraeus

SELECTED PROJECTS

09

Architecture & Restoration

- 01** Music Secondary School, Vartholomio
Municipality of Pinios
- 02** Music Secondary School, Elefsina
Municipality of Elefsina
- 03** 1st & 2nd Primary School, Elefsina
Building Infrastructure S.A.
- 04** 4th General Lyceum of Xanthi · National Conservatory of Agrinio
- 05** Energy upgrade of the Zappeion Megaron — architectural, MEP and energy study
Committee of Olympic Games and Bequests
- 06** Agioi Apostoloi Park, Chania — detailed design
Municipality of Chania
- 07** New bridge over the Keritis river, Alikianos, Chania
- 08** Adaptive reuse of the former Aigio Paper Mill buildings
Municipality of Aigialeia
- 09** Regeneration of public spaces in Amorgos, Ios, Sami and Poros
MOD S.A.
- 10** Restoration of the Church of the Transfiguration of the Saviour
Municipality of Metamorfosi
- 11** Restoration and seismic protection of the Church of Megali Panagia, Samarina
- 12** Restoration of the «Goulas» Tower, Emporio, Santorini
- 13** Building facilities for the Andravida equestrian centre
- 14** Landscaping of the Varagas exhibition area
